SUMMARY

Experienced team leader and developer specializing in Salla and Zid platforms. Delivered 12+ themes, enhancing user engagement by 30%, with expertise in custom components, dynamic functionalities, and responsive design

EXPERIENCE

Team Leader for Salla & Zid Developers

<https://azzrk.com/>

November 2022 - Present, Talkha - Egypt

- Led a development team since June 2024, delivering over 12 high-quality, responsive themes for Salla and Zid platforms, improving user experience and client satisfaction.
- Provided custom e-commerce solutions, including dynamic components, UI enhancements, and tailored functionalities, while gaining experience in Shopify theme development and innovative integrations.
- Acted as the primary technical advisor, mentoring junior developers, ensuring project deadlines action met, and integrating modern design elements into 15+ live projects, boosting user engagement by 30%.

Front-end react developoer

<https://arnewwaves.net/>

August 2021 - October 2022, Mansoura- Egypt

- Built responsive and user-friendly interfaces using React, HTML, CSS, SASS, and Bootstrap.
- Integrated Firebase for backend support and implemented React libraries like React Router, React Bootstrap, React Hooks, and Redux Toolkit for state management.
- Developed and deployed a progressive web application, focusing on seamless functionality and cross-device compatibility.

PROJECT

Mawasem salla theme

freelance • salla.design/dev-iw4f5u2pl8lutrtd • February 2025 - March 2025

- Enhanced user experience by adding interactive elements like popups, carousels, and countdown timers, along with dynamic product filters and content display scripts.
- Modified Twig templates to adjust layouts and introduce custom components like product cards and bespoke sections, tailored to client needs.
- Engineered the Mawasem Salla theme for full responsiveness, ensuring seamless functionality across devices and integrating dynamic features for an enriched user experience.

Runaway (salla & zid) theme

Azzrk • salla.design/dev-e0amff0fztf3kd12 • October 2024 - November 2024

- Orchestrated the development of the Runaway Salla theme, enhancing user interface and experience, which resolved multiple customer issues and increased platform adoption.
- Spearheaded the Runaway Salla theme project, which improved platform UI/UX, resolved extensive customer issues, and increased user engagement by 35% within three months.
- Engineered the Runaway Salla theme, incorporating advanced UI/UX features that boosted customer satisfaction by 40% and reduced support ticket volume by 25% within the first quarter of launch.

INFUENCERS COMPANIES

Azzrk • influencer.sumoue.com/ • January 2024 - July 2024

- Developed a multi-company website with dynamic theme switching based on server domain, catering to 15 different companies.
- Streamlined influencer outreach by simplifying the process for companies to engage with influencers for advertising.
- Utilized React, Redux Toolkit, API integrations, Bootstrap, and CSS to create a responsive and efficient platform.

gulftix

Azzrk • gulftix.com/ • April 2023 - August 2022

- Designed and implemented a dynamic ticket marketplace supporting secure transactions for entertainment, sports, and concert events.
- Utilized React and Redux Toolkit for efficient state management and seamless user interactions.
- Styled the platform with CSS and Tailwind to ensure a responsive and visually appealing interface.
